

Jordan Reyes

Impact-driven data scientist delivering production models from ambiguous business problems.

EXPERIENCE

Data Scientist | Meridian Labs | 2018-06 to 2024-12

- Built Python models that improved forecast accuracy by 22%.
- Designed SQL pipelines processing 12M records daily.
- Deployed machine learning services on AWS with 99.9% uptime.
- Partnered with product teams to define measurable experiments.
- Automated Airflow workflows and reduced manual operations by 40%.
- Mentored analysts and documented reproducible model practices.

SKILLS

Python, SQL, Machine Learning, Spark, AWS, Airflow, Pandas, PyTorch

EDUCATION

BS Data Science, State University, 2018
